Emission Defence Packing

EDP15 for Valves

- API 622 2nd Edition Certified and compliant with Enhanced LDAR performance requirements for valves
- Excellent sealability in a single spool packing
- Excellent flexibility allowing for easy installation and handling in the field
- Extremely formable with low extrusion under gland load
- Extremely low friction

Pillar style EDP 15/No. 6315CL-EDP15 is made from high grade flexible graphite Pillarfoil® yarn that is externally reinforced by inconel wire mesh. The packing is treated with a special lubricant to ensure excellent sealability.

* Product weight (Not include spool & Box)

Specifications

Temperature

-328 ~ +750°F (-200 ~ +400°C) *

Pressure

2200psi (155 bar)

ASME class 900

pH

0 to 14 (except strong oxidizers)

* On the condition the temperature of the packing remains below +660°F (+350°C)

Applications

1) Refinery, Petro-chemical
2) Chemical
3) Cryogenic
4) Power plant, e.t.c.

Follow the instructions, before installation and operation, for your safety.
